

Medi-10 90 Tap Spout

AT07-102

Medi-10 90 Tap Spout

This range of modern, minimalistic and highly practical removable spouts are designed for the most demanding healthcare environments. The spout quickly and easily removes for servicing, ensuring minimal disruption. With a 316 Stainless Steel solid body, smooth flow channels and easy to clean shape, the KWC DVS EZ Spout maintains high levels of hygiene to reduce cross contamination.

The twist and lock mechanism ensures quick and easy removal of all KWC DVS EZ Spouts from the mounting spigot for efficient, disruption-free cleaning and maintenance. Features - Slim, minimalistic, modern appearance - Versions available with or without outlet - Easily removable spout body for sterilising - 316 Stainless Steel body and water way - Sensors include the fully programmable sensor (required separately)
