

TEMPERATURE BLENDING VALVE - 15MM

SH00-010

The Temperature blending valve is a regulator of the mixed water to fixed temperature giving a remarkable saving of hot water, due to the pre-fixed mixture eliminating temperature excess.

PRODUCT NUMBER

SH00-010	Temperature blending valve - 15mm
----------	-----------------------------------

TECHNICAL DATA

Weight	0.2kg
Material	Body: Chromed brass
Type of operation	Manual
Water connection	Brass 1/2" BSP connection

Recommendations:

It is strongly recommended to fit a thermostatic mixing valve prior to fitting the blender valve.
