

BATH CONTROL SYSTEM

Control Box Only

SH07-020

The bath filling control system (SH07-020) can be used with wave-on or tactile switches. The half fill level is half that of the full fill which is adjustable. There are a number of kits available to suit a wide range of requirements. Benefits of the bath filling control system are similar to the shower control system except that it operates a single valve post thermostatic mixer, with the option of hot and cold if required.

PRODUCT NUMBER

SH07-020

TECHNICAL DATA

Weight	1.3 kg
Material	Polycarbonate
Run Times	Please see instructions
Power source	230V a.c.
IP rating	X4
Voltage	230V a.c.

For settings please refer to SH07-020 - Bath Control Box Instructions
