

NEW BATTERY WC FLUSHVALVE CONTROL SYSTEM

WC FLUSHVALVE CONTROL SYSTEM

The NEW DVS Battery WC Flushvalve Control System has a typical battery life allowing up to 10,000 WC flush operations!

The system activates the DVS Flushvalve upon operation of the DVS No-touch sensor (tactile control also available), and accurately delivers the optimum flush- thanks to the easily adjustable time settings.

Typical water savings of up to 30% can be achieved.

MAIN FEATURES

- Approximate 10,000 operation battery life (C-Cells)
