WC00-008

WC Flushvalve control system - battery

The WC Flushvalve V3 Control System (battery version) has a battery life allowing up to 10,000 WC flush operations. Accurately deliver the optimum flush via hygienic no-touch sensor operation. Compatible with both DVS programmable and standard sensors.

Technical data

Weight	1kg
Material	ABS plastic
Run times	2 - 6.5 seconds
Battery type	6x C-cell
IP rating	54
Amps	0.14A (MAX)
Voltage	9V DC

Kit options

Battery flushvalve kit (2" base) with programmable sensor	(WC03-053)
Battery flushvalve kit (1½" base) with programmable sensor	(WC03-052)
Battery flushvalve kit (2" base) with standard sensor	(WC03-051)
Battery flushvalve kit (1½" base) with standard sensor	(WC03-050)
