NO TOUCH WASHROOM PRODUCTS FOR FOOD PREPARATIONS AREAS...

WC FLUSHVALE

The DVS WC Flushvalve is electronically operated, delivering a measured volume of water upon activation. Flush duration can be adjusted to suit specific requirements.

Our safe and reliable flushvalve system contains few moving parts, requires no maintenance and is easily installed in existing and new cisterns using industry standard fittings.

FEATURES

- 4.5 litre flush
- Adjustable for optimum flush
- Built-in overflow pipe
- Operated using DVS hygienic no-touch sensor
- Typical 30% savings on water costs

WC03-022

WC Flushvalve Kit - 1 1/2" base fitting
(includes WC Flushvalve shown above)

WC01-023

WC Flushvalve Only - 1 1/2" base fitting

WC FLUSHVALVE CONTROL BOX & STANDARD SENSOR

A simple wave of the hand past the DVS sensor activates the electronic flushvalve via the WC Flushvalve Control System, in return delivering the optimum flush.

The control box enables adjustment of flush duration, auto purge facility and lock-out option for high security applications.

Delivering an accurate measured flush every operation can help achieve significant water savings.

FEATURES

- Hygienic no-touch sensor operation
- Adjustable flush duration
- Auto purge and lock-out options
- Eliminates flush handle maintenance
- Reliable and high performance
