

#### DRYX600

Hands-in hand dryer

High Speed "Hands-in" hand dryer for wall mounting, antibacterial ABS plastic, colour silver, drying time 7-10 seconds, hygienic thanks to non-contact opto-electronically controlled release and integrated HEPA filter, adjustable air speed, optionally warm or cold air, auto shutdown after 25 seconds, water tank and discharge can be cleaned separately, protection class IPX4. Cable and plug not included in scope of delivery.

Supply voltage 220 - 240 V, 50 - 60 Hz  
 Performance overall 1250 - 1650 W  
 Heating 550 W  
 Noise 65 - 69 dB(A)  
 Air speed 75 - 100 m/s  
 Water tank capacity 800 ml  
 Dimensions 300 x 699 x 230 mm (W x H x D)

#### Technical data

|                         |                             |
|-------------------------|-----------------------------|
| Overall depth           | 230mm                       |
| Overall height          | 699mm                       |
| Overall width           | 300mm                       |
| Material                | Synthetic                   |
| Tailor made             | No                          |
| Type of operation       | Sensor operation            |
| Air velocity            | Adjustable                  |
| Blower output           | 243.5 cubic metres per hour |
| Protective system IP    | IPX4                        |
| Input supply voltage Hz | 60 hertz                    |
| Input supply voltage V  | 230 volt                    |
| Heating power           | 550 watt                    |
| Total power             | 1,650 watt                  |
| Sound level             | 69 dB                       |
