- **WRAS Approval Number: 1812067 - Approved Product**

Range of deck mounted, single hole, single outlet, electronically operated tap assemblies with chromium plated brass bodies. Flow is controlled by a solenoid valve which is actuated via an infra-red sensor. The inlet hoses incorporate stainless steel strainers and approved check valve cartridges; however, the complete assemblies have not been fully tested to demonstrate that they provide backflow protection. The spout outlets incorporate a plastic aerator. Maximum working pressure 10.0 bar. Maximum operating temperature 60°C.

- **Section:** 0684 Combination Tap Assemblies
- **Section Subtitle:** Non-touch Methods of Control Products listed in this section utilise flow control methods that do not require touch to a more
- **WRAS Approval Number:** 1812067
- **Expiry date:** 31/12/2023
- **Size:** Stainless steel braided PEX lined flexible hose incorporating 3/8" captive nut end connections.
- **Marking:** Franke on top of body.
- **Installation Requirements:** R001,R006,R009
- **Model:**

F3EM1001 (article no. 2030033388),
F3EM1002 (article no. 2030033389),
F3EM1003 (article no. 2030033545) &
F3EM1005 (article no. 2030039469).
