

# OFFICE AND WORKPLACE WASHROOM SOLUTIONS

# FRANKE WATER SYSTEMS

World leader in supplying  
washroom solutions

*“Franke’s brand promise is to ‘Make It Wonderful’, whether you are a business partner or an end user”*

**Over 235 years of experience**

Franke has been specialising in products for commercial washrooms for over 200 years and Dart Valley Systems are a market leader in the field of water-saving products along with automatic washroom solutions for over 30 years. Together Franke and DVS have united in order to provide one wonderful solution to specialist applications.

Washrooms in offices, factories and other workplace environments can be an important experience for users, from customers to employees. Our range has been designed to be robust and aesthetically pleasing in order to cater for all users.

With a complete range of sanitaryware including urinals and WC’s, washbasins and integrated stylish accessories, along with touch-free water saving taps our products are suitable for any workplace. The standard and bespoke products within the washroom range are scalable to match the size and scope of any project.

**CE/UKCA MARKING** is applied to products to indicate conformity to the current regulations. Certifications can be found on our websites.

**BREEAM** Franke can assist specifiers in achieving BREEAM points for projects with a range of water and energy efficient products.

**UNIFIED WATER LABEL** Part of the BMA, the water efficient product label focuses on specific water saving products that are particularly water efficient.

**NSF TMV3**  
TMV3 scheme ensures that products are suitable for healthcare environments and provide a safe water supply.

**WRAS** promote, encourage and enforce the prevention of waste, undue consumption, misuse, or contamination of water.

**HOLDERS OF ISO9001** globally recognised rigorous set of standards for quality management.

**HOLDERS OF ISO14001** globally recognised rigorous set of standards for environmental management

**ACCREDITED CONTRACTOR CHAS** The Contractors Health and Safety Assessment Scheme improves health and safety standards across the UK.

**SAFE CONTRACTOR APPROVED**  
SafeContractor delivers a tailored health and safety accreditation.

**CONSTRUCTIONONLINE** Help buyers to simplify and speed up their search, improving resource and cost efficiency through the validation of purchasing decisions. Based on suppliers completion of multiple document working to the PAS 91 criteria.

**RIBA CPD** We offer a choice of RIBA approved CPD interactive seminars – a must for anyone specifying washrooms for commercial projects.

**BMA** The Bathroom Manufacturers association acts as an information highway between Industry Government and the consumer on all issues that affect the bathroom business in the UK.

**WELS** Australian Standards relating to product quality, including health and safety efficiency.

**IHEEM**  
Institute of Healthcare Engineering & Estate Management is the UK's largest specialist Institute for the Healthcare Estates sector.

**NBS SOURCE** is a tool that creates a single source for product information and data. There are over 200 products listed and a range of corresponding BIM models available for both Franke and Dart Valley branded ranges.

**WATER TECHNOLOGY LIST (WTL)** WTL provides details of products that qualify for the enhanced capital allowance scheme, both Franke and Dart Valley branded ranges are listed in the database.

# WORKPLACE WASHROOMS

## From offices to factories...

### Versatile washroom solutions from Franke Water Systems UK

In today's commercial washroom environment design is becoming a big factor within the specification process, whether it be the integration of latest technology or design-led products. There are many products on the market that can create a smart and unique washroom to suit any budget. Washrooms can have an impact on the experience particularly in offices whether it be a client or employee the aesthetics and functionality are of key importance to any visitor. In larger work place washrooms such as big corporate offices or factory toilets water consumption can be an issue. Choosing efficient products can not only save hundreds of thousands of litres of water per year but also reduce running costs.

Washrooms in office buildings project company values to visitors while also providing a feel-good factor to employees, that can have a motivating impact on them. Clean, hygienic washrooms and workspaces show your employees how much you value their dedication and effort. Clear shapes and easy-care surfaces based on contemporary designs foster a friendly atmosphere in a hygienic environment and form the ideal basis for establishing this value. We offer a wide range of products suitable for any office or workplace environment.

### Project support

Specifying products for a project can be a long drawn out process, if you have a large project with various bespoke products and are unsure of what to specify, please get in touch with our pre-sales team. The support staff can offer product advice and pricing support on special products so you can achieve your specification and budget requirements.

For more information and advice call 01246 458900 or email [ws-info.uk@franke.com](mailto:ws-info.uk@franke.com). Alternatively you can go online and book an appointment with one of Franke's experienced Specification Sales Managers who are happy to help and offer you support.

Bowl dims: 355 x 100 x 355mm (W x H x D)

<b>ANMT2001</b>	203.0598.590	Without tap ledge
<b>ANMT2002</b>	203.0598.591	With tap ledge

**MODERN COMPOSITE WASHBASINS**

The RONDAtop and QUADROtop countertop washbasins provide a modern design along with hygiene benefits. These eye catching centrepieces have been designed with a unique, integrated seal, providing a streamlined and hygienic finish with easy installation, making additional sealing with silicone is a thing of the past. If you're designing a new office block, these basins are the ideal choice to provide a modern look and finish.

Manufactured from Miranit composite material, the solid surface basins easily transform the whole washroom and can revamp the overall look and space. Miranit is a poured material and manufactured using a single mould creating a finished product without any adhesive seams or joints. Complement the washbasins with an elevated tap from the F5 range.

Composite material

Hygienic and easy to clean

Resistant up to 80°C

Impact resistant

No silicone required

**Extension piece**

In order to get the most modern and stylish solution, we have designed an extension piece for our F5 tap to suit Rondatop and Quadrotop basins and elevate the height of the tap for a complete wonderful solution.

<b>ACLM1010</b>	208.0599.909	140mm extension piece for F5L-Mix

PLANOX WASHTROUGHS

Robust stainless steel troughs ideal for factory and industrial toilets

16 – 17

Stainless steel washtroughs

The Planox range of washtroughs offers a functional, easy-to-clean and user-friendly solution whilst ensuring optimum hygiene. Manufactured from 1.2mm thick grade 1.4301 (304) stainless steel with a satin polished finish, these troughs can withstand high usage areas and busy areas such factory or industrial washrooms. The troughs are seamlessly welded using an innovative robotic laser, making them highly resistant to dirt and bacteria. The 1cm lowered tap ledge stops water from spilling on to the floor, preventing hazards and maintaining excellent levels of hygiene.

Planox washtroughs

PL6T-UK	203.0564.759	600mm trough with tap ledge
PL8T-UK	203.0564.760	800mm trough with tap ledge

# COMPLETE ANY WASHROOM

## Manual and self-closing taps

### F3 and F5 range of taps

In highly frequented washrooms, it is important to choose taps which reduce the impact of water wastage and vandalism whilst ensuring efficient hygiene. The F5 range of taps excel in functionality and style and come in three ranges; electronic, self-closing and lever taps. All Franke F5S self-closing taps have been designed with the patented Franke Modular Innovation Cartridge (FRAMIC). The cartridge ensures stagnation-free, hydraulic control of the water flow and sets the highest hygiene standards.

The F3 range has been designed with a classic look in mind. The traditional and elegant design of the F3 self-closing mixer taps are ideal for smaller washroom environments such as visitors centres.

\*F5S taps only

#### F5S SELF-CLOSING PILLAR MIXER\*

F5S-Mix self-closing pillar mixer with adjustable, turn-proof temperature stop. Designed with the FRAMIC self-closing cartridge. Nominal 5 litres per minute flow rate.

**F5SM1001** 208.0563.593

#### F5S SELF-CLOSING PILLAR TAP\*

F5S self-closing pillar tap (pre-mixed) with adjustable flow duration. Designed with the FRAMIC self-closing cartridge. Nominal 5 litres per minute flow rate.

**F5SV1001** 208.0563.594

#### F5L-MIX PILLAR LEVER TAP

Designed with a mixing cartridge with ceramic disc technology and thermostatic protection from scalding. Nominal 5 litres per minute flow rate.

**F5LM1001** 208.0563.550 100mm project.

**F5LM1002** 208.0563.591 125mm project.

#### F3S SELF-CLOSING PILLAR TAPS

Hydraulically controlled self-closing function which prevents water from flowing back through the system. Nominal 3 litres per minute flow rate.

**F3SM1001** 208.0563.601 mixer tap

**F3SV1001** 208.0519.518 pre-mixed

F5EM1001

#### \*The Franke Modular Innovation Cartridge (FRAMIC)

The ceramic self-closing cartridge is the first of its kind in tap disc technology and enables a stagnation-free, hydraulic control of water flow ensuring perfect water hygiene. The operation of the cartridge is flow pressure-independent meaning drinking water is kept completely separate to the functional elements of the tap.

# COMPLETE ANY WASHROOM

## Hygienic, touch-free and water saving taps

### High performance touch-free taps

Hand washing has never been so important as it is today. The touch-free range of taps provides ultimate flexibility in any washroom environment. With three different ranges; F5E, Aquarius wall mounted straight spouts and the Classic range there is a solution for any size or type of washroom. The range of taps are all electronically controlled and provide a hygienic touch-free hand washing solution even in the busiest of environments. These WRAS approved taps come in a range of finishes, from satin and high polish grade 316 stainless steel to high polished chrome plated brass. The range is fully programmable with additional functions such as hygiene purge, lockouts and anti-vandal features. DVS and Franke hand held programmable remotes are sold separately.

<b>G20118N</b>	205.0000.059	1800 x 300 x 555mm (13.5l)
<b>G20119N</b>	205.0000.060	2400 x 300 x 555mm (13.5l)

**STAINLESS STEEL URINALS**

Over half of ‘domestic’ water used in commercial premises can be due to urinals operating without flush controls. Adding the correct flush controls such as DVS Flushmatic, or installing waterless products can vastly reduce water bills with minimal initial outlay, particularly in busy office environments.

All Franke branded urinals are manufactured from robust 1.2mm thick grade 1.4301 (304) stainless steel with a satin finish. The urinals have been specifically designed for easy installation and maintenance.

# CATERING SOLUTIONS

## Office canteen and dining areas

### Catering and hand washing

Franke Water Systems has a range of solutions for workplaces and shared office buildings with kitchens, canteens and food halls. When working with food processing on a daily basis or having multiple users, continuous hygiene is an obvious requirement. Functionality, material selection and easy cleaning are essential for equipment in the food processing industry in order to guarantee the continuous high quality of the food being produced. The range includes catering sinks, preparation tables and a variety of wall shelves. Manufactured from grade 304 stainless steel, this material is highly durable, resistant to corrosion and long lasting. Stainless steel is the perfect material for any large kitchen or catering environment and with a range of inset basins, optional supports, stands and shelves (sold separately) and complementary parts including taps and waste kits provide a full solution.
