

Installation Parkview Clinic

DVS have just completed an installation at Park View Clinic CAMHS (Child and Adolescent Mental Health Services) in Moseley (see right) as part of the Birmingham Children's Hospital Scheme.

This is the first part of the programme with further expansion to follow on completion of this stage. DVS Worked very closely with Couch Perry Wilkes, QA Architecture and The Estates Department of the Hospital to provide fully what was needed.

The Clinic is part of Birmingham Children's Hospital and specialises in Family Therapy for children and adolescents with mental health problems.

DVS worked in partnership with Taurus Bedrooms and Bathrooms to provide Corian IPS panels and Anti-ligature Sanitary ware and Electronic controls in 11 ensuite rooms and the ancillary areas.

The safe ensuites were chosen as they are designed for the toughest environments and manufactured using advanced technologies, they are also robust yet designed to look domestic, making it ideal for therapeutic environments.

The DVS high security sanitaryware range has been designed and tested to be vandal proof and avoid ligature points wherever possible. DVS will continue to work with the hospital to adapt our range to suit new and existing patient environments.

All DVS products will of course be backed by our 5 year warranty.
