

KFC Install DVS No-Touch Taps Nationwide

KFC have selected DVS No-Touch Classic tap for new and existing restaurants throughout the UK.

As one of the UK's most popular fast food chains, KFC greets hundreds of visitors every week. When choosing products for their washroom refits and new stores a sleek design aesthetic as well as a product that can cope with high traffic usage was a very important part of the selection criteria. The fast food chain will guarantee improved hand-washing facilities as well as water saving benefits. DVS intelligent no-touch taps have saved an estimated 50% on water consumption per store.
