

DRYX600

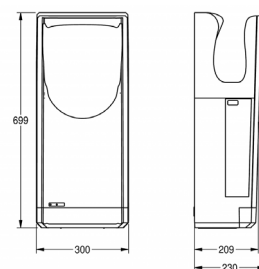

This new high speed “hands-in” dryer is designed with a touch free opto-electronically controlled sensor and integrated HEPA filter, the DRYX600 provides peace of mind in environments where hygiene is essential. The antibacterial ABS plastic, separate water tray and drainage hole also ensures optimum hygiene by preventing water spilling on to the wall and floor (protection class IPX4).

The DRYX600 is speedy, robust, and energy efficient with a dry time of just seven seconds. The air speed and velocity is adjustable with an option for warm or cold air. An auto-shutdown function after 25 seconds prevents any misuse. The DRYX600 is also quieter than most hand dryers on the market with a minimum noise level at just 65dB, making it an excellent choice for education washrooms particularly with small children where loud noises can be daunting.

DRYX600 HANDS IN DRYER

The elegant DRYX600 high speed “hands-in” dryer is designed to be highly efficient, quiet and hygienic. Water is scraped off the hands and collected in the removable tray, preventing water from running on to the floor or walls. The HEPA filter sanitizes the air flow, whilst the water channel and tray are easily cleaned providing a hygienic, clean hand drying solution.

TECHNICAL DATA	
Colour and material	Silver ABS plastic
Dry time	7 - 10 seconds
Temperature control	On/off
Motor:	Brush
Supply voltage	220 - 240 V, 50 - 60 Hz
Power	1250 - 1650W
Heating	550W - PTC
Noise	65 - 69 dB(A)
Filter	HEPA
Net weight	7kg
UV light	Yes

PRODUCT CODE	221.0664.349
List price	£460.00
Air speed	75 - 100 m/s
Air velocity	Adjustable
Air quantity	243.5 m³/h
Air temperature	37°C
Auto shut down	25 seconds
Water tank capacity	800 ml
Dimensions	699 x 300 x 230mm
Warranty	2 years
CE marked	Yes
IP rating	IPX4
