F5L Mix stainless steel shower panel with hand shower fitting

MODEL RANGE: F5 | F5LM2023 | 210.0590.343

Showers | Manual shower

F5L Mix shower panel made of stainless steel for wall mounting with DN 15 single lever mixer and a hand shower fitting. For conection to hot and cold water. Shower valve with integrated mixing cartridge and mechanism for an optional water hygiene unit for automatic water hygiene flushing, program-controlled thermal disinfection (additional bypass solenoid-operated flush valve cartridge required) and storage of statistical data. Mixing cartridge with ceramic disc technology and thermostatic protection from scalding which is permanently set to 43 °C, and with safety switch-off in the event of a failure in the cold water supply. All-metal construction, visible parts high-polished or chrome-plated. Pre-fitted chrome-plated brass shower pole with height-adjustable hand shower holder and chrome-plated brass hand shower, shower head with rain jet, diameter 110 mm, shower hose 900 mm. Housing made of stainless steel with raised function surface and plastic cover caps. Connecting hoses with lockable water volume control with backflow preventer and strainer.

Dimensions of housing 235 x 1160 x 90 mm (W x H x D)
