

Sports and leisure washrooms solutions

KWC DVS WATER SYSTEMS

World leader in supplying
stadia and leisure solutions

Over 230 years of experience

KWC DVS has specialised in products for commercial washrooms for over 230 years. KWC DVS Systems is a market leader in water-saving products and automatic washroom solutions, supplying products into the healthcare market for more than 35 years. Together KWC DVS provide one wonderful solution to specialist applications.

Our extensive knowledge enables us to understand the key considerations required in sport and leisure washrooms, and we have designed suitable products for sports stadiums, leisure facilities and event venues. This stadia and leisure package covers everything from public areas and player dressing rooms right through to luxurious VIP restrooms in VIP and banqueting areas. Many of these products are also suitable for pubs, restaurants and other leisure facilities.

WATER TECHNOLOGY LIST (WTL) WTL provides details of products that qualify for the enhanced capital allowance scheme, KWC DVS branded ranges are listed in the database.

PLANOX WASHTROUGHS

Seamlessly welded stainless steel washtroughs

Stainless steel washtroughs

The Planox range of washtroughs offers a functional, easy-to-clean and user-friendly solution whilst ensuring optimum hygiene. Manufactured from 1.2mm thick grade 1.4301 (304) stainless steel with a satin polished finish, these troughs can withstand high usage and busy areas such as stadiums, sports halls and leisure centres. The troughs are seamlessly welded using an innovative robotic laser, making them highly resistant to dirt and bacteria. The 1cm lowered tap ledge stops water from spilling onto the floor, preventing hazards and maintaining excellent levels of hygiene.

MIRANIT WASHTROUGHS

Robust composite washtroughs that leave a long lasting impression

Miranit composite washtroughs

KWC DVS's SOLX washtroughs are manufactured from a unique, robust material, making them ideal for any sports or entertainment establishment. Miranit is cast in a single mould without any seams or joints and has excellent material properties; it is temperature resistant up to 80°C and is shatterproof, unlike most ceramics on the market. Finished with a gel coat surface, Miranit is easy to clean and maintain and boasts excellent hygiene standards for busy environments such as sports stadiums.

2 PERSON MIRANIT COMPOSITE WASHTROUGH

OTHER OPTIONS AVAILABLE

Troughs with splashback
Miranit troughs are also available without a splashback in two, three or four person lengths.

Electronic bib taps
Add KWC DVS branded electronic touch-free taps for a full solution with splashback.

MIRANIT WASHTROUGHS

Robust composite washtroughs that leave a long lasting impression

Miranit composite washtroughs with splashback

The Miranit composite washtroughs with splashback allows bib taps to be fitted directly to the unit. The splashback conceals the pipework allowing for wall-mounted taps in spaces without a void behind the wall.

KWC DVS's SOLX washtroughs are manufactured from a unique, robust material, making them ideal for any sports or entertainment establishment. Miranit is cast in a single mould without any seams or joints and has excellent material properties; it is temperature resistant up to 80°C and is shatterproof, unlike most ceramics on the market. Finished with a gel coat surface, Miranit is easy to clean and maintain and boasts excellent hygiene standards for busy environments such as sports stadiums.

Miranit troughs are also available without a splashback in two, three or four person lengths.

Self-closing taps
Add KWC DVS branded self-closing taps from the F3 or F5 range for a full solution. Deck mounted and wall mounted versions available.

FROM PLAYERS DRESSING ROOMS TO GYM TOILETS

Water saving showers

Showers for changing rooms

It is essential to consider showers as a critical component in athletic facilities, such as Olympic training camps, athletic centres and football academies. All users must have somewhere to shower before and after training, whether track and field, football, or swimming. In players changing rooms, public swimming pools or gym toilets, showers leave a lasting impression and are a significant factor when choosing a fitness or activity centre. These products are designed to be robust and withstand high footfall and continuous use whilst offering high energy efficiency and sustainability credentials.

COMPLETE THE WASHROOM

Water saving taps

Touch-free taps

The touch-free range of taps provides ultimate flexibility for sports and leisure environments, with three different ranges; Aquarius pillar spouts, Aquarius straight spouts and the classic range. The range of taps are all electronically controlled and provide a hygienic hand washing solution even in the busiest of environments. These WRAS approved faucets come in a range of finishes, from satin and high polish grade 316 stainless steel to high polished chrome-plated brass. The Aquarius range of taps is fully programmable with additional functions such as hygiene purge, lockouts and anti-vandal features. DVS and KWC DVS handheld programmable remotes are sold separately.

*Aquarius taps only

AQUARIUS 45° SPOUT

Touch-free spout with a satin finish and PEX hoses. Nominal 5 litre per minute flow rate.*

COMPLETE THE WASHROOM

Self-closing and lever taps

Self-closing and lever taps

In highly frequented washrooms in various sports and leisure establishments, choosing taps that reduce water wastage and vandalism is essential while ensuring efficient hygiene.

The F5 range of taps excel in functionality and style and come in three ranges; electronic, self-closing and lever taps. The self-closing range is designed with the patented KWC DVS Modular Innovation Cartridge (FRAMIC) that ensures stagnation-free, hydraulic control of the water flow and sets the highest hygiene standards. The F3 range is designed with a classic look in mind and is ideal for various sports and leisure facilities.

Chrome plated brass Hygienic material Easy to clean Innovative FRAMIC cartridge*

*F5S taps only

F5S SELF-CLOSING PILLAR MIXER*

F5S-Mix self-closing pillar mixer with adjustable, turn-proof temperature stop. Designed with the FRAMIC self-closing cartridge. Nominal 5 litres per minute flow rate.

F5SM1001 208.0563.593

F5S SELF-CLOSING PILLAR TAP*

F5S self-closing pillar tap (pre-mixed) with adjustable flow duration. Designed with the FRAMIC self-closing cartridge. Nominal 5 litres per minute flow rate.

F5SV1001 208.0563.594

F5L-MIX PILLAR LEVER TAP

Designed with a mixing cartridge with ceramic disc technology and thermostatic protection from scalding. Nominal 5 litres per minute flow rate.

F5LM1001 208.0563.591 100mm project.
F5LM1002 208.0563.592 125mm project.

F3S SELF-CLOSING PILLAR TAPS

Hydraulically controlled self-closing function which prevents water from flowing back through the system. Nominal 3 litres per minute flow rate.

F3SM1001 208.0563.601 mixer tap
F3SV1001 208.0519.518 pre-mixed

F5SM1001

*The KWC DVS Modular Innovation Cartridge (FRAMIC)

The ceramic self-closing cartridge is the first of its kind in tap disc technology and enables a stagnation-free, hydraulic control of water flow ensuring perfect water hygiene. The operation of the cartridge is flow pressure-independent meaning drinking water is kept completely separate to the functional elements of the tap.

ACCESSORISE

Three different ranges to suit all styles and specifications

DRYX500N hands in dryer

High speed ABS hands-in hand dryer with integrated HEPA filter and drip tray
Power output: 1250-1650W
Sound level: 65-69 dB

SANITARYWARE

Modern washrooms need to be functional, stylish and long-lasting. KWC DVS has designed a range of robust sanitaryware for various facilities, whether a simple renovation or complete washroom revamp.

KWC DVS's stainless steel and GRP WCs are perfect for busy entertainment and sports venues as the range is manufactured from highly robust and hard-wearing materials. The KWC DVS branded flush valves and cisterns can complete any busy washroom and provide a water-saving solution.

				
304 stainless steel	Glass reinforced polyester	Robust construction	Easy to clean	Easy to install

Flush valve kits available

We have flush kits available for use with all our WCs, see pages 32-33 for more details.

Concealed plastic cistern kit

Includes WRAS approved side entry valve, back to pan connector & concealed vertical cistern.

G20126L 205.0553.762 1800mm left hand

G20126R 205.0553.763 1800mm right hand

CENTINEL SLAB URINAL

Stainless steel urinal with concealed sparge pipe. Bespoke lengths and exposed sparge pipe options are also available.

CEN120C 205.0651.539 1200 x 300 x 555mm (9l)

CEN150C 205.0651.635 1500 x 300 x 555mm (9l)

CEN180C 205.0651.540 1800 x 300 x 555mm (13.5l)

CEN240C 205.0651.631 2400 x 300 x 555mm (13.5l)

STAINLESS STEEL URINALS

Over half of 'domestic' water used in commercial premises can be due to urinals operating without flush controls; therefore, adding the proper flush controls or installing waterless products can vastly reduce water bills with minimal initial outlay.

All KWC DVS branded urinals are manufactured from robust 1.2mm thick grade 1.4301 (304) stainless steel with a satin finish. The urinals have been specifically designed for easy installation and maintenance.

Programmable urinal sensor

Wall mounted brushed stainless steel urinal sensor complete with 3m extension cable.

AC02-023 209.0628.712

Urinal flush controls

Flushmatic surface mount kit (battery) complete with solenoid valve, for cistern fed flushing.

WC AND URINAL FLUSHING

Water saving flush valves kits and programmable sensors

Flush valves

The DVS branded flush valves are ideal for all high usage washrooms such as football stadiums and training grounds as they provide reliable water-saving benefits. The flush valve can be set to flush automatically or by wave operation, reducing the risk of cross-contamination. Both auto and wave options have dual flush capability, although a single 4-litre flush is recommended. The flush valve has been designed to be compatible with most WC cisterns on the market. Therefore, there is no need to change the existing plumbing as it can be retrofit to existing installations.

WC FLUSHVALVE KIT WITH PROGRAMMABLE SENSOR

Low voltage WC flushvalve kit with programmable sensor.

WC03-013 209.0610.660 1 ½" base

WC03-014 209.0611.269 2" base

WC FLUSHVALVE KIT WITH WAVE-ON SENSOR

Standard WC flushvalve kit with vandal resistant wave-on sensor and 3m cable.

WC03-022 209.0606.400 1 ½" base

WC03-023 209.0643.162 2" base

PROGRAMMABLE URINAL SENSOR

Wall mounted brushed stainless steel urinal sensor complete with 3m extension cable.

WRAS
 Approval for
 flushvalve only

Water conservation

DVS branded flush controls typically save 30% of water usage and costs. The range has been designed with adjustable settings for optimum flush, purge, lock-outs and more. The DVS flush controls exceed the BREEAM 6 litre base level for water efficiency. The WRAS approved kits are optimised for water conservation operating as low as 4 litres per flush.

CLEANING SOLUTIONS

Janitorial, cleaning and general purpose sinks

Crosshead bib taps

Complete the bucket sink with bib taps. Conforms to BS5412 standard. F1072N extension piece available (two required).

F1071/3N 208.0574.188

Monobloc mixer

The monobloc mixer tap is ideal for canteen or staff room sinks. Conforms to BS5412 standard.

REVERSIBLE SINKS

Manufactured from grade 304 stainless steel these multi-purpose sinks are ideal for canteens or staff room sinks.

F0306NP 203.0529.988 Single bowl sink

F0309NP 203.0529.985 Bowl 1/2 sink

MAINTENANCE

Cleaning and janitorial can often be an afterthought when designing and specifying products for large establishments such as sports stadiums and event venues. However, maintaining a building to a high standard is one of the most critical factors for facilities with a high footfall.

KWC DVS's cleaning and janitorial range includes general kitchen sinks, bucket and cleaners sinks, janitorial units, and various utility sinks. All manufactured from grade 304 stainless steel guarantee the best quality to maintain large establishments to a high standard.

ACCESSIBLE FOR EVERYBODY

Doc M sanitaryware

Doc M sanitaryware support packs

At least one accessible toilet must be available in public buildings to comply with the building regulations. KWC DVS has designed several products with various considerations, including aesthetics, durability and the user's specific needs. The range is suitable for many education establishments. It includes stainless steel and epoxy coated coloured grab rails to make the washroom experience as easy as possible for whoever the user may be.

The Contina grab rails made of non-slip stainless steel will allow you to grip the rail even if wet. The Doc M compliant range includes various support rail packs and full Doc M sanitary and support rail packs. A bespoke range of grab rails is available to create a unique washroom style or suit specific needs; any colour and length are possible.

WC packs include:

- 4 x stainless steel grab rails 600mm
- 1 x Stainless steel drop down rail 760mm (blue), 850mm (stainless)
- Stainless steel back rests and cushion 24mm (blue), 150mm (stainless)

Accessories, taps and basins sold separately

Features

- Slip resistant high quality stainless steel
- Accessible tap with ergonomic lever
- Raised height WC
- Comfortable PU foam back rest cushion
- Matching stainless steel accessories available as extras
