

KWC DVS CAMBRINO

Baby changing unit

The new range of Cambrino baby changing tables is suitable for all public and semi-public premises including restaurants, hotels, airports, office buildings, public spaces and many more. The wall mounted units have been beautifully designed and manufactured from bacterial resistant polypropylene with an option for a stainless steel front cover to suit all modern washroom designs. The range includes horizontal and vertical changing tables, and the option to choose with or without a stainless steel front cover. These fully compliant baby changing tables can enhance any washroom and provide a hygienic, practical and safe solution.
