

# **KWC DVS WATER SYSTEMS**

# World leader in supplying stadia and leisure solutions

#### Over 230 years of experience

KWC DVS has specialised in products for commercial washrooms for over 230 years. KWC DVS Systems is a market leader in water-saving products and automatic washroom solutions, supplying products into the healthcare market for more than 35 years. Together KWC DVS provide one wonderful solution to specialist applications.

Our extensive knowledge enables us to understand the key considerations required in sport and leisure washrooms, and we have designed suitable products for sports stadiums, leisure facilities and event venues. This stadia and leisure package covers everything from public areas and player dressing rooms right through to luxurious restrooms in VIP and banqueting areas. Many of these products are also suitable for pubs, restaurants and other leisure facilities.

ACCREDITATIONS 4 — 5

**CE/UKCA MARKING** is applied to products to indicate conformity to the current regulations. Certifications can be found on our websites.

**BREEAM** KWC DVS can assist specifiers in achieving BREEAM points for projects with a range of water and energy efficient products.

**UNIFIED WATER LABEL** Part of the BMA, the water efficient product label focuses on specific water saving products that are particularly water efficient.

#### NSF TMV3

TMV3 scheme ensures that products are suitable for healthcare environments and provide a safe water supply.

**HOLDERS OF ISO9001** globally recognised rigorous set of standards for quality management.

**HOLDERS OF ISO14001** globally recognised rigorous set of standards for environmental management

#### ACCREDITED CONTRACTOR CHAS The

Contractors Health and Safety Assessment Scheme improves health and safety standards across the UK.

#### SAFE CONTRACTOR APPROVED

SafeContractor delivers a tailored health and safety accreditation.

constructiononLine Help buyers to simplify and speed up their search, improving resource and cost efficiency through the validation of purchasing decisions. Based on suppliers completion of multiple document working to the PAS 91 criteria.

**RIBA CPD** We offer a choice of RIBA approved CPD interactive seminars – a must for anyone specifying washrooms for commercial projects.

**BMA** The Bathroom Manufacturers association acts as an information highway between Industry Government and the consumer on all issues that affect the bathroom business in the UK.

**WELS** Australian Standards relating to product quality, including health and safety efficiency.

#### IHEEM

Institute of Healthcare Engineering & Estate Management is the UK's largest specialist Institute for the Healthcare Estates sector.

# **PLANOX WASHTROUGHS**

# Seamlessly welded stainless steel washtroughs

#### Stainless steel washtroughs

The Planox range of washtroughs offers a functional, easy-to-clean and userfriendly solution whilst ensuring optimum hygiene. Manufactured from 1.2mm thick grade 1.4301 (304) stainless steel with a satin polished finish, these troughs can withstand high usage and busy areas such as stadiums, sports halls and leisure centres. The troughs are seamlessly welded using an innovative robotic laser, making them highly resistant to dirt and bacteria. The 1cm lowered tap ledge stops water from spilling onto the floor, preventing hazards and maintaining excellent levels of hygiene.

#### Planox washtroughs for deck mounted taps

All troughs are available with deck mounted and bib taps (see brassware on pages 12-15)

# **MIRANIT WASHTROUGHS**

# Robust composite washtroughs that leave a long lasting impression

#### Miranit composite washtroughs

KWC DVS's SOLX washtroughs are manufactured from a unique, robust material, making them ideal for any sports or entertainment establishment. Miranit is cast in a single mould without any seams or joints and has excellent material properties; it is temperature resistant up to 80°C and is shatterproof, unlike most ceramics on the market. Finished with a gel coat surface, Miranit is easy to clean and maintain and boasts excellent hygiene standards for busy environments such as sports stadiums.

# FROM PLAYERS DRESSING ROOMS TO GYM TOILETS

# Water saving showers

#### Showers for changing rooms

It is essential to consider showers as a critical component in athletic facilities, such as Olympic training camps, athletic centres and football academies. All users must have somewhere to shower before and after training, whether track and field, football, or swimming. In players changing rooms, public swimming pools or gym toilets, showers leave a lasting impression and are a significant factor when choosing a fitness or activity centre. These products are designed to be robust and withstand high footfall and continuous use whilst offering high energy efficiency and sustainability credentials.

# Water saving taps

#### **Touch-free taps**

The touch-free range of taps provides ultimate flexibility for sports and leisure environments, with three different ranges; Aquarius pillar spouts, Aquarius straight spouts and the classic range. The range of taps are all electronically controlled and provide a hygienic hand washing solution even in the busiest of environments. These WRAS approved faucets come in a range of finishes, from satin and high polish grade 316 stainless steel to high polished chrome-plated brass. The Aquarius range of taps is fully programmable with additional functions such as hygiene purge, lockouts and antivandal features. DVS and KWC DVS handheld programmable remotes are sold separately.

# Self-closing and lever taps

#### Self-closing and lever taps

In highly frequented washrooms in various sports and leisure establishments, choosing taps that reduce water wastage and vandalism is essential while ensuring efficient hygiene.

The F5 range of taps excel in functionality and style and come in three ranges; electronic, self-closing and lever taps. The self-closing range is designed with the patented KWC DVS Modular Innovation Cartridge (FRAMIC) that ensures stagnation-free, hydraulic control of the water flow and sets the highest hygiene standards. The F3 range is designed with a classic look in mind and is ideal for various sports and leisure facilities.

# WC AND URINAL FLUSHING

# Water saving flush valves kits and programmable sensors

#### Flush valves

The DVS branded flush valves are ideal for all high usage washrooms such as football stadiums and training grounds as they provide reliable water-saving benefits. The flush valve can be set to flush automatically or by wave operation, reducing the risk of cross-contamination. Both auto and wave options have dual flush capability, although a single 4-litre flush is recommended. The flush valve has been designed to be compatible with most WC cisterns on the market. Therefore, there is no need to change the existing plumbing as it can be retrofit to existing installations.

#### **MAINTENANCE**

Cleaning and janitorial can often be an afterthought when designing and specifying products for large establishments such as sports stadiums and event venues. However, maintaining a building to a high standard is one of the most critical factors for facilities with a high footfall.

KWC DVS's cleaning and janitorial range includes general kitchen sinks, bucket and cleaners sinks, janitorial units, and various utility sinks. All manufactured from grade 304 stainless steel guarantee the best quality to maintain large establishments to a high standard.

# **ACCESSIBLE FOR EVERYBODY**

# Doc M sanitaryware

#### Doc M sanitaryware support packs

At least one accessible toilet must be available in public buildings to comply with the building regulations. KWC DVS has designed several products with various considerations, including aesthetics, durability and the user's specific needs. The range is suitable for many education establishments. It includes stainless steel and epoxy coated coloured grab rails to make the washroom experience as easy as possible for whoever the user may be.

The Contina grab rails made of non-slip stainless steel will allow you to grip the rail even if wet. The Doc M compliant range includes various support rail packs and full Doc M sanitary and support rail packs. A bespoke range of grab rails is available to create a unique washroom style or suit specific needs; any colour and length are possible.

#### WC packs include:

- 4 x stainless steel grab rails 600mm
- 1 x Stainless steel drop down rail 760mm (blue), 850mm (stainless)
- Stainless steel back rests and cushion 24mm (blue),150mm (stainless)
