

# Aquari-Save AC04-046

Water control valve

The Aquari-Save is a Programmable valve assembly which grants the user full control over the release of water. This aids in water saving by reducing unnecessary water release outside standard facility use through extensive programmable options.

## PRODUCT NUMBER

AC04-046                      212.0669.029

## TECHNICAL DATA

Material	Black ABS
Gross weight	0.23 kg
Type of mounting	Direct to valve
Operation type	Programmable sensor
Adjustable settings*	
Day of the Week	Mon-Sun
First Flush	00:00 - 23:45 (15 min Increments)
Last Flush	00:00 - 23:45 (15 min Increments)
Number of flushes	0 - 40
Run time Default:	2 Secs
Run time options	2, 5, 10, 15, 20, 30, 40, 50, 60 seconds

\*Set by handheld programmer (AC01-001)
