

F3E Electronic pillar tap with battery compartment

F3EV1001

Electronic pillar tap with battery compartment

F3E pillar tap DN 15 for sanitary facilities, opto-electronically controlled. For connection to pre-mixed hot or cold water via hose and strainer. Control electronics, solenoid valve cartridge and sensor in all-metal housing, high-polished chromium-plated brass. Aerator with integrated flow regulator 6.0l/min. Activated water hygiene flushing 24 hours after last activation, safety switch-off with continuous reflection and saving of statistical data.

With option for parameterization and communication via optional, bidirectional remote control. With battery compartment including 6 V lithium battery (CR-P2) for installation under the washbasin.

Technical data

With backflow preventer	No
Calculation flow rate cold water	0.1l/s
Compatible A3000 open	No
Default automatic hygiene flush	24h after the last activity
Depressurised	No
With filter	Yes
Functional principle	Electronic self-closing
Hygiene flushing	Yes
Diameter nominal	DN 15
Inlet size	G 3/8
Locking mechanism	Top section, non ceramic
Material fitting	Brass
Minimum flow pressure	1 bar
Type of mixing	No
Number of batteries	1
Programmable	Yes (via handheld programmer)
Pop-up waste set	No
Power supply connection	Battery 6V
Position of power connection	From bottom
Type of power supply	Battery
With rosettes / cover plate	No
Protective shutdown	Yes
Sound insulation	No
Spout	Fixed
Spout projection	100mm
Surface finish fitting	Chromium-plated brass
Surface treatment fitting	Polished
Tailor made	No

F3E Electronic pillar tap with battery compartment

Technical data

Temperature limit	No
Thermal disinfection	No
With transformer / power supply	No
Type of batteries	CR-P2 Lithium battery 6V
Type of mounting	Tap hole
Type of operation	Sensor operation
Type of sensor	Opto-electronic sensor
Type of tap	Pillar tap
Volume flow rate at 3 bar	0.1l/s
Water connection	Hose (gland nut)
Accent colour	None
Basic colour	Chrome-look (glossy)
