

DARTMOUTH Soap dispenser black PVD finish

Model line: DARTMOUTH | **AT10-080**

AT10-080

Dartmouth soap dispenser Black PVD finish

Stainless steel soap dispenser with a sleek and durable black PVD finish, designed for both style and functionality in high-traffic washroom environments. This premium soap dispenser combines modern aesthetics with robust features, making it an ideal solution for public restrooms, commercial facilities, and high-end hospitality settings.

Built with a vandal-resistant casing, this soap dispenser is designed to withstand heavy use, maintaining its appearance and functionality even in demanding environments. The infrared sensor detects hand movement within seconds, ensuring quick and efficient dispensing of soap without the need for physical contact, promoting excellent hygiene.
