

KINGWEAR 60° tap spout - PVD black

Model line: KINGWEAR | **AT10-023**

AT10-023

60° tap spout - PVD black

This range of modern, minimalistic and highly practical removable spouts are designed for the most demanding healthcare environments. The spout quickly and easily removes for servicing, ensuring minimal disruption. With a 316 stainless steel solid body, smooth flow channels and easy to clean shape, the Kingswear spout maintains high levels of hygiene to reduce cross contamination.

The twist and lock mechanism ensures quick and easy removal of the kingswear spouts from the mounting spigot for efficient, disruption-free cleaning and maintenance. Available in gold, satin and black PVD coating.
