

KWC

INFORM outlet - 240mm non electric

IC02-049

INFORM outlet

INFORM clinical outlet, manufactured from 316 stainless steel with a brushed finish. The spout design features an anti-microbial outlet and an in-built intelligent thermistor, which connects to our INFORM Universal Monitor kit to monitor temperatures, or to the INFORM 6 Channel Control box to monitor temperatures and provide enhanced remote wireless control of all operating parameters with full verification via the INFORM Platform.

It has an integrated flow control of 5 litres per minute (other flow rates are also available). The outlet projection is 220mm.

Technical data

Type of tap	Aquarius WM straight
Material	316 stainless steel
Surface finish	Brushed
Gross weight	1.25kg
Type of sensor	Separate sensor required
Type of mounting	Wall mounted
Type of mixing	Additional TMV may be required
Spout projection / total tap length	220mm / 240mm
Minimum flow pressure	1 bar (lower pressure station kits available)
Water connection	15mm copper tails
Volume flow rate at 3 bar	5 LPM (other flow rates available)
Working pressure	1-10 bar (for low / high pressure contact KWC DVS)
Max working temperature	60°C
Fixing	¾" BSP
Fixing length	Up to 30mm with flange nut
