High-security basin with high-security spout 2 sensors

VR01-120
High-security basin

The high-security GRP vanity basin is designed for durability and safety, complete with two deck-mounted, ligature-resistant spouts made from 316 stainless steel and two programmable sensors. The programmable stainless steel sensors allows for customised settings such as sensor range, run-on time, and purge cycles.

This high-security setup is ideal for environments requiring robust, tamper-resistant fixtures that prioritise both safety and functionality.
